Proposed by Initiative Measure 413

Shall the Nebraska Constitution be amended to limit government spending by limiting tax revenue increases by state and local governments? Tax revenue increases would be limited to the rate of inflation, population growth, costs of temporary emergencies, and new, unfunded federal mandates. Voters may elect to exceed the limit. Property tax rates or sales and income tax rates would be reduced if projected local or state tax revenues exceed the increase permitted. Taxes above the limit would be returned through reduced tax rates. After five years, the Legislature, by three-fourths vote, and with the Governor's approval, may suspend the limit.

Against	10047
Total	15333

Proposed by Initiative Measure 414

Shall Nebraska Statutes be amended to direct the Public Service Commission to set access charges imposed by local telephone carriers for access to local telephone networks based upon forward-looking economic costs without implicit subsidies; require that average-aggregate prices charged to consumers for long-distance service within the state reflect the reduction in access charges applicable to that service; require that local exchange access be cost-based, competitively neutral and non-discriminatory; and develop competition in the telephone access service marketplace?
